Error 10570 from Module Timelog

Issue

When using CybraryN™ software, error **10570 from module timelog** is displayed.

Cause

This error is produced when the **timelog.txt** file has grown too large. Deleting the **timelog.txt** file will resolve this issue.

Solution

To delete the **timelog.txt** file:

1. Start CybraryN™ software.
2. Go to **File > Setup** and select the **Files** tab.
3. Note the **CybraryN™ Menu Location**.
4. Close the CybraryN™ software.
5. Use Windows Explorer to locate the **timelog.txt** file.
6. Delete the **timelog.txt file** from the CybraryN™ Menu Location.
7. Restart the CybraryN™ software. The 10570 error should no longer appear.
